

Dynacor, with 28 years of experience, is a Canadian-based dividend-paying industrial gold ore processor. The corporation is engaged in gold production by processing ore purchased from the ASM (artisanal and small-scale mining) industry. Dynacor operates in Peru, where its management and processing teams have decades of experience working with ASM miners. It also owns a gold exploration property (Tumipampa) in the Apurimac department. Dynacor is pursuing the due diligence process and development of new projects in other jurisdictions.

(\*) non IFRS measure as described in the MD&A

The plant is running at full capacity. Increase in tonnage processed at a lower grade. Achievement of multiple record financial results in Q3-2024 driven by increases in gold prices and a record volume of ore processed.

## A Proven Leader in Corporate Social Responsibility

- ❑ Funding, participating and developing the ASM's (artisanal small-scale mining) education, health and social services through our PX IMPACT® clean gold program
- ❑ The impact of Dynacor's activities and the well-being of artisanal mining communities are at the heart of our social responsibility awareness. It is important that our actions have a positive economic and social impact on the communities in which we operate

## 1 PURCHASING AND ORE CONTROL

Through our subsidiary Veta Dorada, we buy ore from Artisanal and Small-Scale Miners (ASM) enlisted in the formalizing process of the Peruvian government.
