

ENVIRONMENTAL POLICY

Dynacor is a company dedicated to the purchase and processing of gold ore acquired from Artisanal and Small-Scale Mining (ASM) and sells precious metals. It is committed to sustainable development and assumes responsibility for contributing to the protection of the environment. In this regard, we are committed to:

1. Prevent environmental pollution and protect the natural environment by using our resources appropriately to minimize significant environmental impacts caused by our operations.
2. Identify and manage environmental risks and opportunities associated with our operations to prevent environmental incidents and improve our environmental performance.
3. Comply with current environmental legislation and other regulations that are voluntarily adopted.
4. Promote good environmental practices in our supply chain and nearby communities.
5. Establish goals and objectives to control and monitor compliance through environmental performance indicators.
6. Protect High Conservation Value (HCV) areas and High Carbon Stock (HCS) sites within the scope of our operations.
7. Train personnel in responsible environmental practices, developing and consolidating a culture of environmental protection.
8. Continuously improve our environmental management system, with the active participation of our employees to improve our environmental performance.
9. Communicate our policy within our organization and make it available to all our employees, contractors, suppliers and other interested parties.
